

## District IV Outreach Program Reimbursement Request

The purpose of outreach is to give each and every child a chance to experience the joy of soccer. Some examples of successful outreach programs within CYSA are TOPSoccer and Soccer Start. TOPSoccer is a community-based training and team placement program for young athletics with special needs. These needs are because of a physical or mental disability that might discourage or preclude the child from participating in a sports program. Soccer Start is a program designed to introduce soccer to at-risk children living in economically disadvantaged areas such as rural and inner city communities. In addition to soccer being used as a tool to increase the child's self-esteem and as a positive alternate activity, it can be an opportunity for them to be recognized for their achievements and provide potential scholarships for academic, athletic, or leadership skills.

District IV supports organized efforts for outreach programs within its boundaries. Funds for these programs are available from CYSA through D4. Reimbursement is only available to Leagues or Clubs. First priority shall be to programs, second priority shall be for registration scholarships given for economically disadvantaged children.
